

## About

### **Materials Creative Co. is born and raised in Atlanta, Ga.**

**Materials Creative Co.** is a company dedicated to finding really awesome t-shirts that you'll actually want to wear! The idea came to be when I went to a clothing store years ago never finding anything I would actually want to wear. This lack of awesomeness lit a fire to start making my own t-shirts while learning screen printing at home.

Thrifting was also another fun adventure, but that takes a lot of time sifting through all the hand-me-downs at Goodwill, plus there is no guarantee you'll actually find something.

Which led me to make a website where I, and my friends, could express what we thought was cool and consumable.

**Materials Creative Co.** is a website where a user can view t-shirts, find t-shirts, and have the ability to upload their own to demonstrate their awesome t-shirt style.
